

Artistic Style, Architectural Strength.

Industry unique, where commercial technology has been seamlessly blended with state-of-the-art engineering to form the luxurious feel of contemporary living.

Quaker Residential brings into your home the next generation of Windows and Doors.

Engineered to meet and exceed national thermal performance standards, and manufactured to bridge the open gateways of modern home design, because tomorrows comforts start with todays bold choices.

Dare to Compare.

Discover the reasons why :

So What is the Quaker Difference ?

We ask ourselves this every day, and while the legacy of our Company continues to evolve to meet the ever changing and growing needs seen throughout the world of Windows and Doors, our Core Values have never wavered over the 70 years that we have been in business.

We Listen - Your Voice is the key to our continued learnings and spur the strategic plans we build and implement across all 3 of our intertwined business segments each and every day.

We See - Your Visions are what drive us forward to create the products and services that support who You are, helping define Quaker as the industry leader in the manufacturing of Windows and Doors.

We Share - We Value our Partnerships and continue to share Best in Business practices with both our Customers and Suppliers, cross linking relationships and forming bonds that collectively grow, prosper and last.

What does this mean for You?

Strategic Expansion and Investment.

Product and Technology Innovation.

Unmatched Breadth of Product.

Continuous Improvement.

Environmental Stewardship.

National Distribution.
